Specifications

Output	12 Ton
Weight	13.5 lbs. with Battery
Size	17.1"L x 11.2"H x 3.1"W

Crimping Estimates

	BP-84
500 MCM Cu	60
750 MCM Cu	45

Connector Range

Lugs	1033 ACSR
Splices	477 ACSR

Features

- Utilizes Kearney Type Dies
- One Hand Operation
- Tested Up to 75kV
- Rotational Head
- Bright White, LED Lights for Working in Low Light Conditions
- Rapid Advance
- Ergonomically Designed for Balance and Grip
- Weather Resistant Housing
- Audible Bypass when Predetermined Pressure is Achieved
- Protective Rubber Boot on "C" Head For Brush Contact
- 5 Year Warranty on Tool, Battery & Charger

The **REC-B6510K** battery powered compression tool is designed to accept Kearney WH-2, PH-2 and WH-3 style dies. Weighing just 16.1 pounds it was specifically designed for use in single-handed operation in overhead applications such as cable tray.

It also eliminates the cumbersome hoses and larger, heavier tools traditionally used in overhead work. The REC-B6510K has a full 12-ton capacity and its 1.5 inch jaw opening

The new 6 series battery operated tools with "B" designation are Bluetooth enabled products.

These tools are able to communicate data to your Bluetooth enabled PC via the downloadable software available on Spartaco website.

In addition to the audible beeps and visual Led indicators on these tools identifying battery connection, full compression cycles, proper achieved pressure, and incomplete crimps, the tools also record data to be viewed later via the Bluetooth connection at you PC.

The data includes locked fields for model and serial number of the tool connected. It has cycle count data, and it has fields for read / write capabilities for the user to enter notes such as truck or job number, repair history, or any note the user or maintenance technician may feel important to record.

Complete operation instructions as well as the downloadable computer software is available at: www.spartacogroup.com
