

# 100 TON SINGLE & DOUBLE-ACTING HYDRAULIC CRIMPING HEAD

EP-100SD

## SPECIFICATIONS

MAX PRESSURE	OIL REQUIRED	RAM STROKE
10,000 PSI	25 CU/IN	1.16"

ORDER PRODUCT # EP-100SD-2 (PICTURED)  
ALSO AVAILABLE AS SINGLE-ACTING (ORDER  
PRODUCT # EP-100SD-1)

▶ **Engineered for Full Tension Transmission and Substation Connections**

### FEATURES

Can be used as either single-acting or double-acting, compatible with Huskie Tools pump models R-14EH, R-14EA, R-14EAD, HPG-4, and other 3/4 HP high-pressure pumps.

Double-acting hydraulic cylinder for quicker return times

Capable of operating as single-acting, utilizing its spring return mechanism at a reduced speed.

Accepts shell-type dies compatible with Alcoa 100 Ton compression heads, ensuring versatility.

Double-acting capability ensures hydraulic pressure to retract ram and prevent connector hang-ups or tool jams.

Features a removable die cap for easy connector positioning and 3/8" screw-type couplers for reliable hydraulic connections.

5-year Huskie Tools' limited warranty

### SPECIFICATIONS
